

HEALTH GUARANTEE

Birddog Labs guarantees that your puppy is free of hip dysplasia, exercise induced collapse (EIC), Centronuclear Myopathy (CNM) and can obtain a CERF number for its eyes.

In the unlikely event that the dog is found to have hip dysplasia or can not receive a CERF registration, the pup will be replaced with a pup of equal value.

Guidelines:

- Birddog or Birddog's must be use in the AKC registration of the dog's name to honor this guarantee. It maybe used before the name, at the end the name, or in the middle of the name.

- Hip X-rays must be submitted to OFA or Penn-hip after 24 months of age and no later than 26 months. Eye exams evaluated by Canine Eye Registration Foundation (CERF) must be performed by a certified canine ophthalmologist.

- To ensure defects will not be passed on, the buyer, at his/her expense must spay or neuter the puppy/dog and the dog's AKC papers returned before a new puppy will be granted. Written verification that the procedure was performed must be sent directly to us by the vet. The dog does not have to be returned and may remain with the buyer.

- Dog must not have whelped or sired a litter.

- Hips must not be x-rayed 30 days before or after a female's heat cycle or if pregnant.

- This guarantee covers genetic hip and eye disorders and not damage due to injury or imposed causes such as malnutrition.

- This guarantee is in effect for 30 months from the date of birth to the original purchaser only, and is not transferable.
